My name is Jessica Pelkey. I am currently holding the title of Miss Kansas Jr Teen. I am normally a competitive dancer with The Dance Spot in Burlingame Kansas but I decided this year to step out of the box and enter into pageantry. I am so thankful for my dance coach's encouragement to do so.

I choose to speak about teen mental health and mental health crises. Mental health is a very diverse group of issues so I focus more on anxiety, depression, ADHD, and suicide for teens around my age. These are all subjects that hit close to me as I personally suffer through them. These subjects are still very stigmatized and so many teens don't talk about what they are going through for fear that they will be laughed at or made fun of. I want to change that! I competed at an international level this year and I felt proud to be able to speak about these issues. So proud that I am choosing to compete again this next coming year in

Atlanta. I want girls like myself to look at me and know you can step out of your box and do amazing things. I want girls like me to know that even when your voice shakes and you feel so nervous that you could be helping someone. I want girls like me to stand up and speak out about how they feel. I want them to know they are not alone. Girls like me are just your normal next-door neighbor. We play softball, we cheer, we dance, and we eat ice cream out of the tub while watching weird documentaries. A mental health crisis can be living in the girl next door. My goal is to help at least one person like myself. My final words here are: Use that big voice you have to help others. Speak up, talk!

My name is Jessie Victoria. I am 12 years old. I think gymnastics is really cool. It feels so good to pose as a gymnast. I have recently participated in Santa Monica Pier. It is such a honor for me. Gymnastics can be used as a tool to grab the attention and make people listen to you when they are actually not. I also got to participate in Jacksonville Beach last week. It was an awesome experience. I just hope to have a great journey ahead.

My name is Kate Millar. I am a professional dancer based in New York City. I moved here from the west coast of Canada to study dance at the prestigious Ailey School. Now that I have completed my studies, I have been working as a dancer here in New York!

The experiences I've had could only be possible in a city as crazy, and thrilling as this one! I've been embracing the hustle and been involved in many projects since graduation, including a National Tour with a recording artist, several music video projects and most recently the opportunity to perform alongside the one and only Doja Cat!

Although I have done well so far, there is still so much to learn about the industry and what it truly means to be a working professional. Everyday, I am humbled albeit deeply inspired by fellow dancers in the community as I take classes, and continue to meet some of the most talented performers I have ever known. It really is an honor to get to grow as an artist, and a person, in a city as extraordinary as this one.

I can't wait to see what my future holds as I continue on this challenging, yet profoundly rewarding trek to discovering who I am as an artist, and how I am meant to fit into this world.

Marisa reached out to me on Model Mayhem wanting to Model my latest collections back in April. I was so glad that I chose her as my Model. She modeled my Bridal Collection, Dress Collection and Outerwear Collection with class. She made every photo of her wearing my collections come to life. I will recommend her 100 percent. Once again I am so glad that I got a chance to work with her. Also get this we are both Floridians.

A little About Marisa she is a stay at home Mom, dreaming of taking her children to the beach and having less worries in life. It's the working girl boss with big hopes and dreams of Palm trees and sun. It's the girl who wants the beach in her backyard. It's that girl that isn't perfect but wants to feel confident in her own skin. If she dream it, she can wear it. She is YOU! She is also an Artist and a small business owner. She says that the beach is her escape. She also has an outgoing personality. She even helped me to get my Flapper Dress Sold last month. So I give her an A plus for helping me make that happen. Best of all she is her own Photographer as well.

Bruce Smith is a self taught freelance photographer based in the South Florida area. He has over 40 years experience as a photographer, with 11 of those years as a fashion and Swimwear photographer amongst other types of photography, including product, headshots, family, and corporate, to name a few.

He began his photography passion at the young age of 9, when he received his first camera as a birthday gift from his parents. For the next few years, he spent his entire allowance on film, flash cubes/bars and processing. In High school, he attended Vocational School where he majored in Graphic Arts, which was totally different than what Graphic Arts is, as we know it today. He excelled tremendously in his photography classes, and was the only student in his class that was allowed to photograph the girls in the Cosmetology classes. He was in these classes from September 1975 through graduation in June of 1978, where he graduated highest in his photography class. This was the start for his love and passion for Fashion and Swimwear photography. Before scheduling a photoshoot, of any style, he always conducts either a face-to-face meeting or video call prior to scheduling a photoshoot, so shoot ideas can be discussed, and the model / client and Bruce can get to know a bit of each other's personality. The final results on any shoot doing this, has always proven to result in much better final results.

I grew up watching the glamour of old Hollywood and in my early years, it influenced my art. Thankfully we were able to assemble this photo shoot and produce these images. They are a nod to that very glamour. The goal is always to create art out of the energy and

personality of all parties in the shoot. All of our work comes together to produce that final image. I live for it.
