**ELIAS JEIS:** a Chilean tattoo artist who combines geometry and fluidity in his own style

Victor Elías Sanchez Vásquez, known as @Eliasjeis on Instagram, is a Chilean tattoo artist based in Santiago who has been in the tattoo world professionally for four years. Since he started, he has specialized in the geometric style, but has also dabbled in the abstract style, combining both to create his own style. He is currently touring the United States, visiting different tattoo studios and doing incredible work.

During his career, Elias has participated in several conventions, including the tattoo convention in

Santa Cruz, Bolivia, where he took second place in the geometric category. As he has evolved his style, he has begun to enjoy the combination of geometry with fluids or Suminagashi. For him, the fluidity that the style provides added to the accuracy of the other is something that he loves to see materialized in a complete tattoo.

Elias currently works at the Luna studio located in Providencia Santiago, but is planning to eradicate himself in the United States in the future. If you are interested in working with him on a tattoo project, you can contact him through his Instagram or by sending him a message on Whatsapp.

During his US tour, Victor began at the Hustlers Parlor NYC studio in New York and is currently visiting Raúl Wesche's studio, where he was a guest for two weeks. He will continue his tour through the states of Texas (Austin), Colorado (Denver), Oregon (Portland), Arizona (Phoenix), Los Angeles and to end the month of May in New York.

style has created a unique style that is highly recognized in the world of tattooing. His ability to combine accuracy and fluency has resulted in stunningly beautiful work that has been admired at tattoo conventions and studios around the world. If you have the opportunity to work with Elias, you will certainly be amazed by his skill and creativity in creating custom tattoos, the waiting list is 4 months, a time well worth the wait.

My names Faye Delune, and I'm A Professional Model, and Photographer, (Delune Photography) of over 10+ years, but I'm really just an all around creative person and artist. I make a lot of different forms of content and art. Online Content is my main form of art tho. Honestly my dream is to just make art, and make others happy, but really, If I can spark a reaction of any kind from my art, then I've met my goal. I'm a huge nature lover, who's obsessed with all things astrology and space. so I try my best to incorporate nature and astrology into my work. But really, I just love bringing ideas, and stories to life with my art. Almost every image of either me, or my photography, I try to convey a story within it. "I'm A Blank Canvas, Give Me A Story To Tell." / "Lets Tell A Story." / "A Story Within Each Piece" Are the phrases I Use To Describe My Art. For the past 10 years, I've been studying and learning Photography, and Modeling at The Professional Level and really enjoying the artistic aspect of it all. In the 10+ years, as a model, and photographer, I have had the honor of being featured in/on countless of Magazines, Runways, Commercials, Editorials, Catalogs, Websites, Social Medias, and more! I have also worked with several Brands, Companies, Businesses, Artists, Designers, Bands, and more! Through the years, I've had the pleasure of meeting a lot of very cool, interesting, and kind people. I'm a social butterfly, so obviously this was heaven for me. People leave impacts on you, and this job of mine, regardless of if I'm the model, or photographer, it allows me to meet lots of people, who usually leave impacts on me and vice versa.

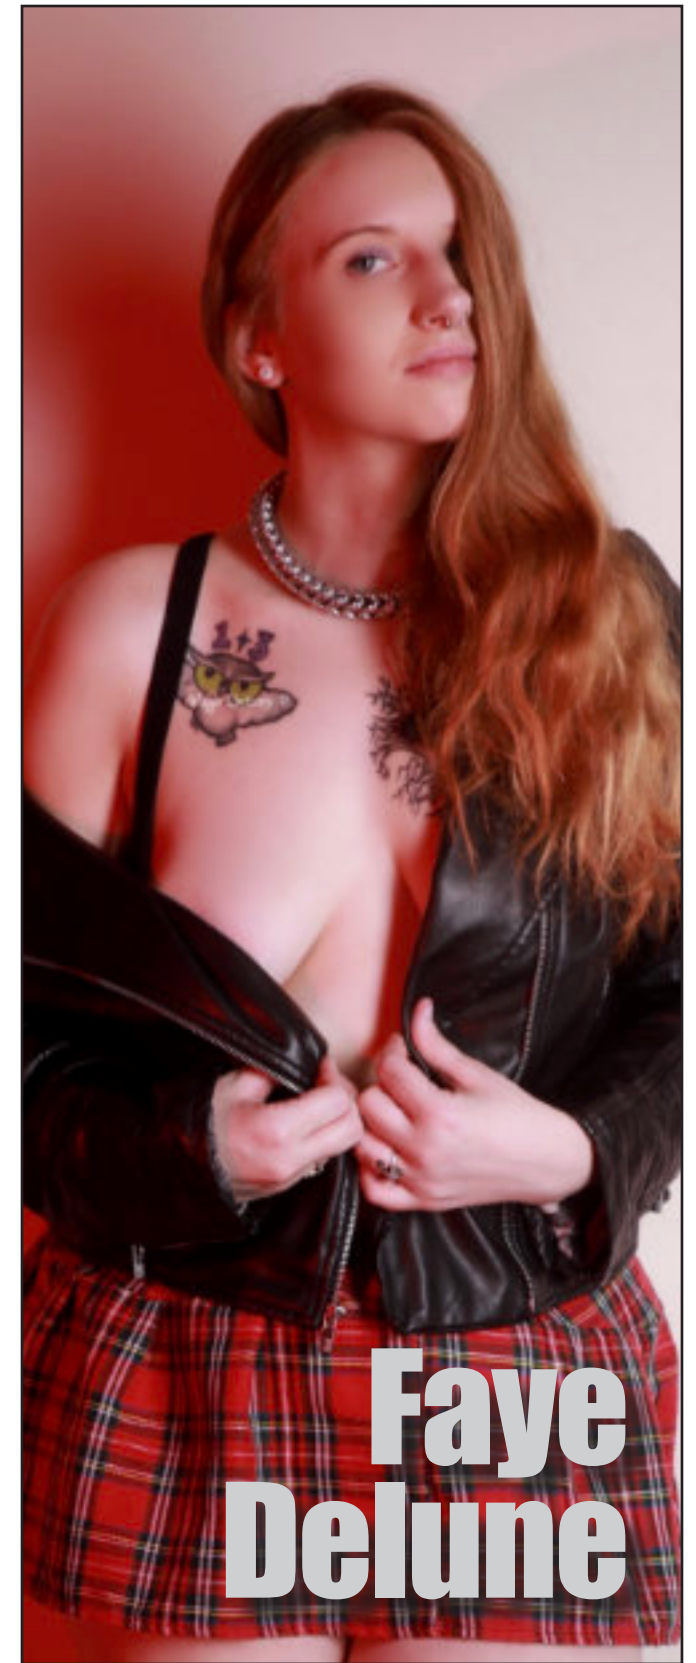

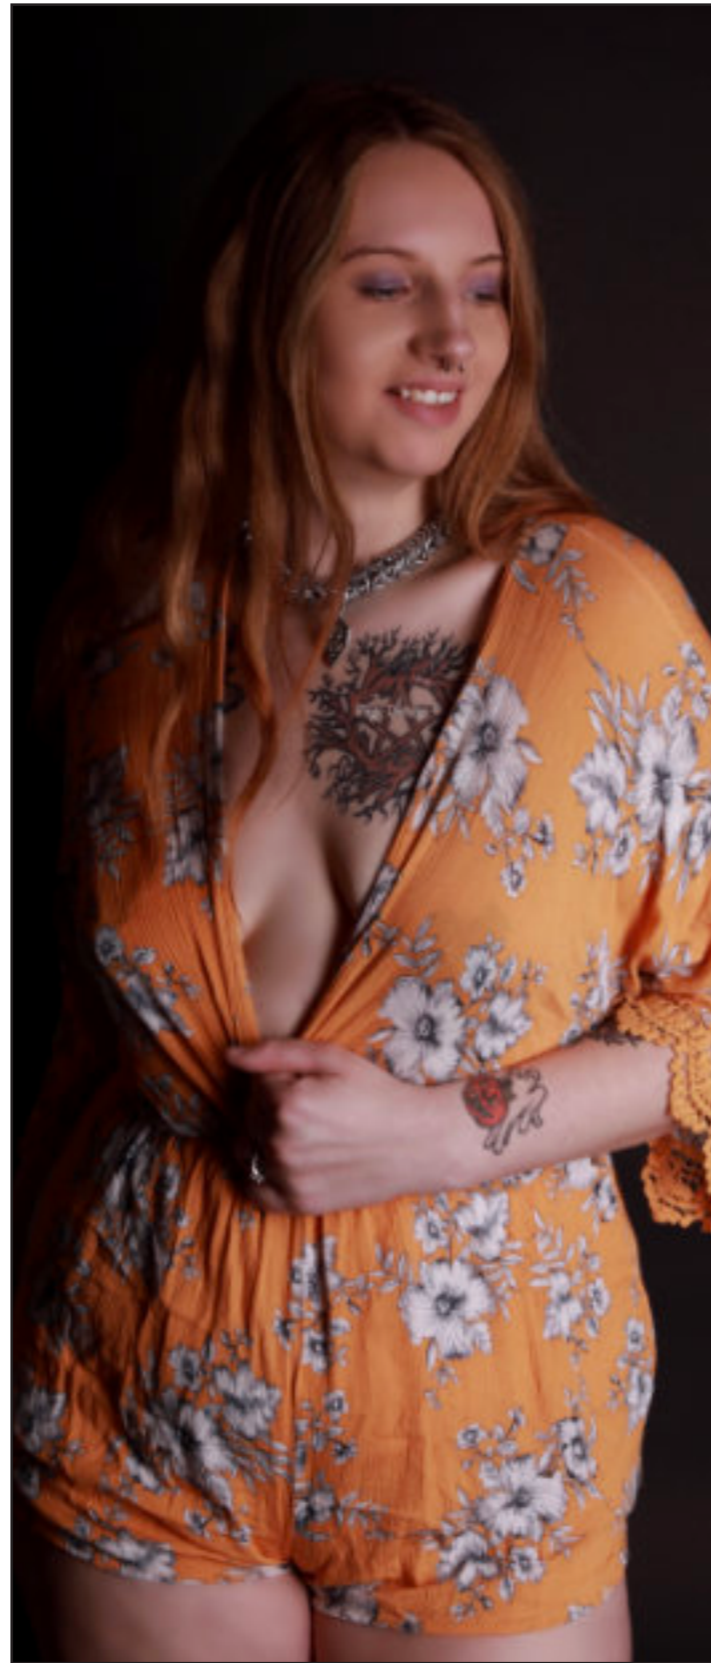

I love making art, and love showing it off.

I hope you enjoy my work, and I welcome you to my world.

I started as a Plus Size model and was always geared towards helping other plus size women be able to be comfortable in their own skin and to see their own beauty. It was always my

dream to help others feel amazing and to see themselves as nothing but beautiful. The confidence that comes from that is an incredible feeling and I love seeing others find that

within themselves. I became a photographer as well to help achieve this goal and dream. To show people what they had a hard time seeing in themselves.
