Happy new year 2024 !

My name is Darine , I'm 13 years old and I'm actress ! I moved from my home country to Canada 6 months ago ! currently working With Max agency in Toronto ! I've always wanted to be on screens since the age of 4 ! I've been asking "how are these people on tv ?" I took acting classes by the age of 6! I started writing movie scenarios by the age of 8 and making editing after filming what I wrote with some of my good friends, I was fascinated by the movie directing too and I still am !! I made 5 short

movies : the magic city of stelatopia , The black cat , Web , Paranormal Rec. but the best one yet is Mila a 50 minutes movie written first then filmed with a small camera I acted , directed, wrote , edited it as well ! And currently writing a story called the inheritance puzzle. I really decided that I wanted to start my career as an actor and future film director. I finally got a contract with a film director after presenting my works and dreams at a fair and found me special so we sign a contract with him and I got the opportunity to act in a commercial by the age of 10 . I moved to Canada this summer and

My name is Tristan Rene. I am a local singer song writer who plays all over - from dive bars, venues, and now even on the streets and in the metro.

I have been in Montreal for 9 yeas looking to touch the souls of people with my music. I love to sing and connect with people on an emotional state of consciousness.

People compare me to Jeff Buckely as a vocalist if you are familiar with who that is.

In my time here I was with a few bands - and finally I went solo in 2022. Things have not been easy on my own, my father was diagnosed with cancer, and I had other personal issues I had to overcome alone in the city. Music

is my religion and my saviour.

It has saved me in difficult times - and continues to do so.

I am blessed to say I have a 5 track EP Standing in The Right Place - finished with Hugh Goldsmith (RCA Records/ innocent records) and Jonny Quinn (Drummer of Snow Patrol.) They flew me out to London and we finished the EP which I am so grateful for that experience. It will start to roll out in March.

Before that release Peter Edwards (Indica Records / GrimSkunk) and I have been finishing up a single "The Lord Gets High on Sunday" Which will be released at the end of this month.

It is truly an expression of my pain, and also positive outlook on everything I have experience in my 10 years in Montreal. It is relatable for everyone this song. Through the chaos there is love and hope always. Even in the end.

You can find me on social media and ALL streaming platform @Tristanrenemusic, or just google Tristan Rene.

I hope you take the time to support what I do and I hope my music can resonate with you as a listener. You can stream my current music now.

Thank you. x

I also dream to meet Taylor swift and she inspires me so much to keep going and I just love her and her work so much! I dream to get my name discovered by people! I dream of appearing in magazines just like this one as an actor, my goals are not just to

gain professional's attention but is to succeed because I love it from the bottom of heart and I'm ready to inspire others to follow their dreams and never give up because if you can dream it then you can do it as the wise Walt Disney said. I want to thank god , family and every lovely person around me that supports me to archive my goals and believe in myself and the universe. It was a pleasure making this article about me and I hope to see myself soon on your pages !! -Darine , written by mom. 😊

Tracie Sperling

I graduated from Marymount University with a B.A. in Fashion Design and Business Administration. I incorporate my original art as actual fabric designs for clothing and matching accessories. I also enjoy modeling on the side as well as acting.

First of all, becoming an emerging fashion designer. I have always had a passion for fashion. I follow the latest trends while creating my own style. To see my hard work officially pay off, when my original designs are professionally featured on the runway is a relief and touching. I love to share my custom made clothing and watch my ideas come alive and hopefully, be presented to buyers and retailers who may be interested. I could not do it without working with such a talented team at Star Dreamer's Production. They really push you towards your long-term goals and inspire you to be your best.

COB ABSTRACTART

Tell us something about your journey becoming an emerging fashion designer? My style is mostly abstract versus traditional. Picasso is my main inspiration as far as art. However, when it comes to fashion I love bold styles and prints so, Lady Gaga I look up to for an edgy, colorful vibe that is unique.

Who is your biggest inspiration? I motivated myself to join New York Fashion Week. My parents are from New York, Brooklyn and Queens. That did have some influence. Though I wanted to visit the big apple and get a taste of the fast-paced city life that is centered on fashion. My experience was positive participating as a designer. I got to see other collections which were a wide variety and network with others who are in my creative field. Thanks to the amazing beauty team and Robin Morris for helping make great things happen. I was so honored to be a part of New York Fashion Week.

Tell us something about your NYFW Experience as a model and designer. My experience as a model has been a journey. I started out through a talent agency called Discovery Spotlight. I was selected by a panel of judges to do a final showcase. I did a jeans runway and a fashion runway with a black and white theme. Since then, I have done tip shoots.

I have some accomplishments such as winning the city title for a beauty pageant called Miss Infinity South Atlantic as well as being published in a Fashion Trends magazine for a swimwear issue and through The Lens.

I try to promote a positive body image to show that models come in all shapes and sizes.

What makes NYFW so prestigious in your own opinion? NYFW was more upscale and prestigious compared to any other event. You are dealing with higher production, larger audiences etc.

If there's something you want to share to the people in the community what would it be and why? My number one message for others in the community is to be yourself and not let anyone bring you down.

My name is Tracie Sperlina. I am 32 years old from Falls Church, VA. I graduated from Marymount University with a B.A in Liberal Studies with concentrations in Fashion Design and Business Administration. I developed my art background from college by taking Drawing I, Painting I, and Painting II, Fashion Illustration etc. I was selected by a panel of judges for the annual student art show twice in a row. I had my own display.

I work with mixed media such as acrylic paint, sharpie oil paint, markers, makeup for portraits and even glitter spray. I enjoy doing collages also. I am an entrepreneur and own COB Abstractart which stands for Creativity Outside The Box. I incorporate my art as actual fabric designs for clothing and matching accessories. One big accomplishment I had was being hand picked by professional art curators for a platform called AllArtWorks. I had an online art gallery that featured two original paintings. In addition, I was selected by a panel of judges for an ITSLIQUID art exhibition where my work was featured in The Contemporary Room art museum in Venice, Italy. I was interviewed for this company as well and the journalist published me in an article for Canvas International Art Fair 2022. As far as fashion designs, my professional, custom made clothing line was featured in NYFW by models on the runway. It was showcased in SDP New York Fashion Week of my original abstract art inspired by landscape pieces in nature.

In addition, I also do acting on the side. I started off doing short skits on YouTube with director Rick Gregory. Two highlights were "Hide For Your Life" and "Freight Stroll". I also debuted in my first horror/sci-fi movie called Chase's Shadow where I played Erin who was a dark, evil villain possessed by Mr. End. This film has one several awards including "best feature sci-fi film" nominated by Hollywood Blvd Film Festival. There was a huge movie premiere in L.A and I am proud it has received this recognition in the industry. Brad Tessin is the amazing director who worked 3 years on filming and producing this project which landed up having a sequel with BTMS productions.

Becoming a model in the music industry wasn't my first choice. I want to say that I got into modeling before I got some music. I started my Modeling journey in 2020 with a studio in New York City Manhattan. As I continued the modeling journey, I recently fell in love with music. Late rapper Juice WRLD what is my inspiration towards music in during that same month of the passing of Juice WRLD I lost someone that was really dear to me and that was my mother. During that time Covid 19 was a big thing, and I was leaving my hometown to go off to college in Pittsburgh. I want to say February 2021 was when I began to take music seriously. Me and my friend we were actually roommates and he actually did music before me. We begin to record music on our phones. He show me the ropes of how to mix and master my music, but at the time it wasn't enough for me I wanted to

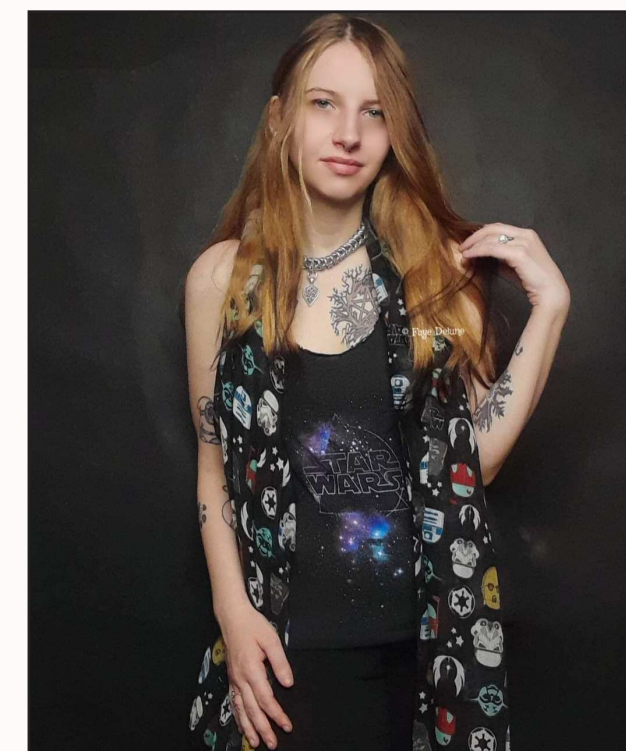

increase my quality. Long story short I've been doing music since 2021 and by just doing music I have been hit with a ton of different opportunities. Met a lot of new people and start to take Modeling seriously. My modeling career really beginning to kick off. I want to say this year of 2023. I was in a situation where I met the right people and had the right support and was able to be a part of numerous shows, such as Philly, some fashion, johnstown magazine, and johnstown fashion week, enigma masquerade fashion show in, and a couple other minor fashion shows as well. Once I lost my motivation and the people dear to me, that's when everything began to change.

My names Faye Delune, and I'm A Professional Model, Musician, and Photographer, (Delune Photography) of over 10+ years, but I'm really just an all around creative person and artist. I make a lot of different forms of content and art. Online Content is my main form of art tho. Honestly my dream is to just make art, and make others happy, but really, If I can spark a reaction of any kind from my art, then I've met my goal. I just love bringing ideas, and stories to life with my art. Almost every image of either me, or my photography, I try to convey a story within it. "I'm A Blank Canvas, Give Me A Story To Tell." / "Lets Tell A Story." / "A Story Within Each Piece" Are the phrases I Use To Describe My Art. Through the years, I've been studying and learning Modeling, Music and Photography at The Professional Level and really enjoying the artistic aspect of it all. In the 10+ years, as a model, musician, and photographer, I have had the honor of being featured in/on countless of Magazines, Runways, Commercials, Editorials, Catalogs, Websites, Social Medias, and more! I have also worked with several Brands, Companies, Businesses, Artists, Designers, Bands, and more! Through the years, I've had the pleasure of meeting a lot of very cool, interesting, and kind people. I'm a social butterfly, so obviously this was heaven for me. People leave impacts on you, and this job of mine, regardless of if I'm the model, musician, or photographer, it allows me to meet lots of people, who usually leave impacts on me and vice versa.

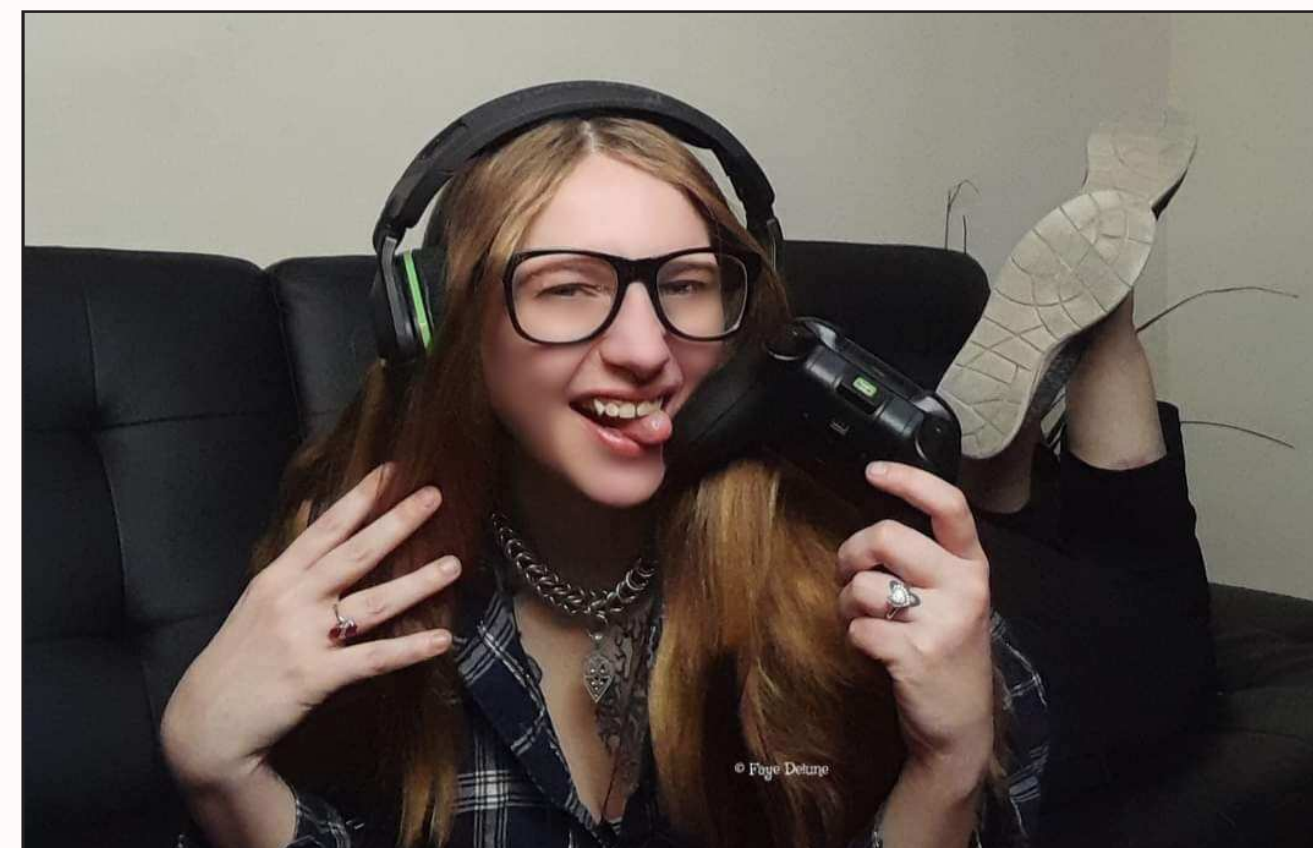

I love making art, and love showing it off.

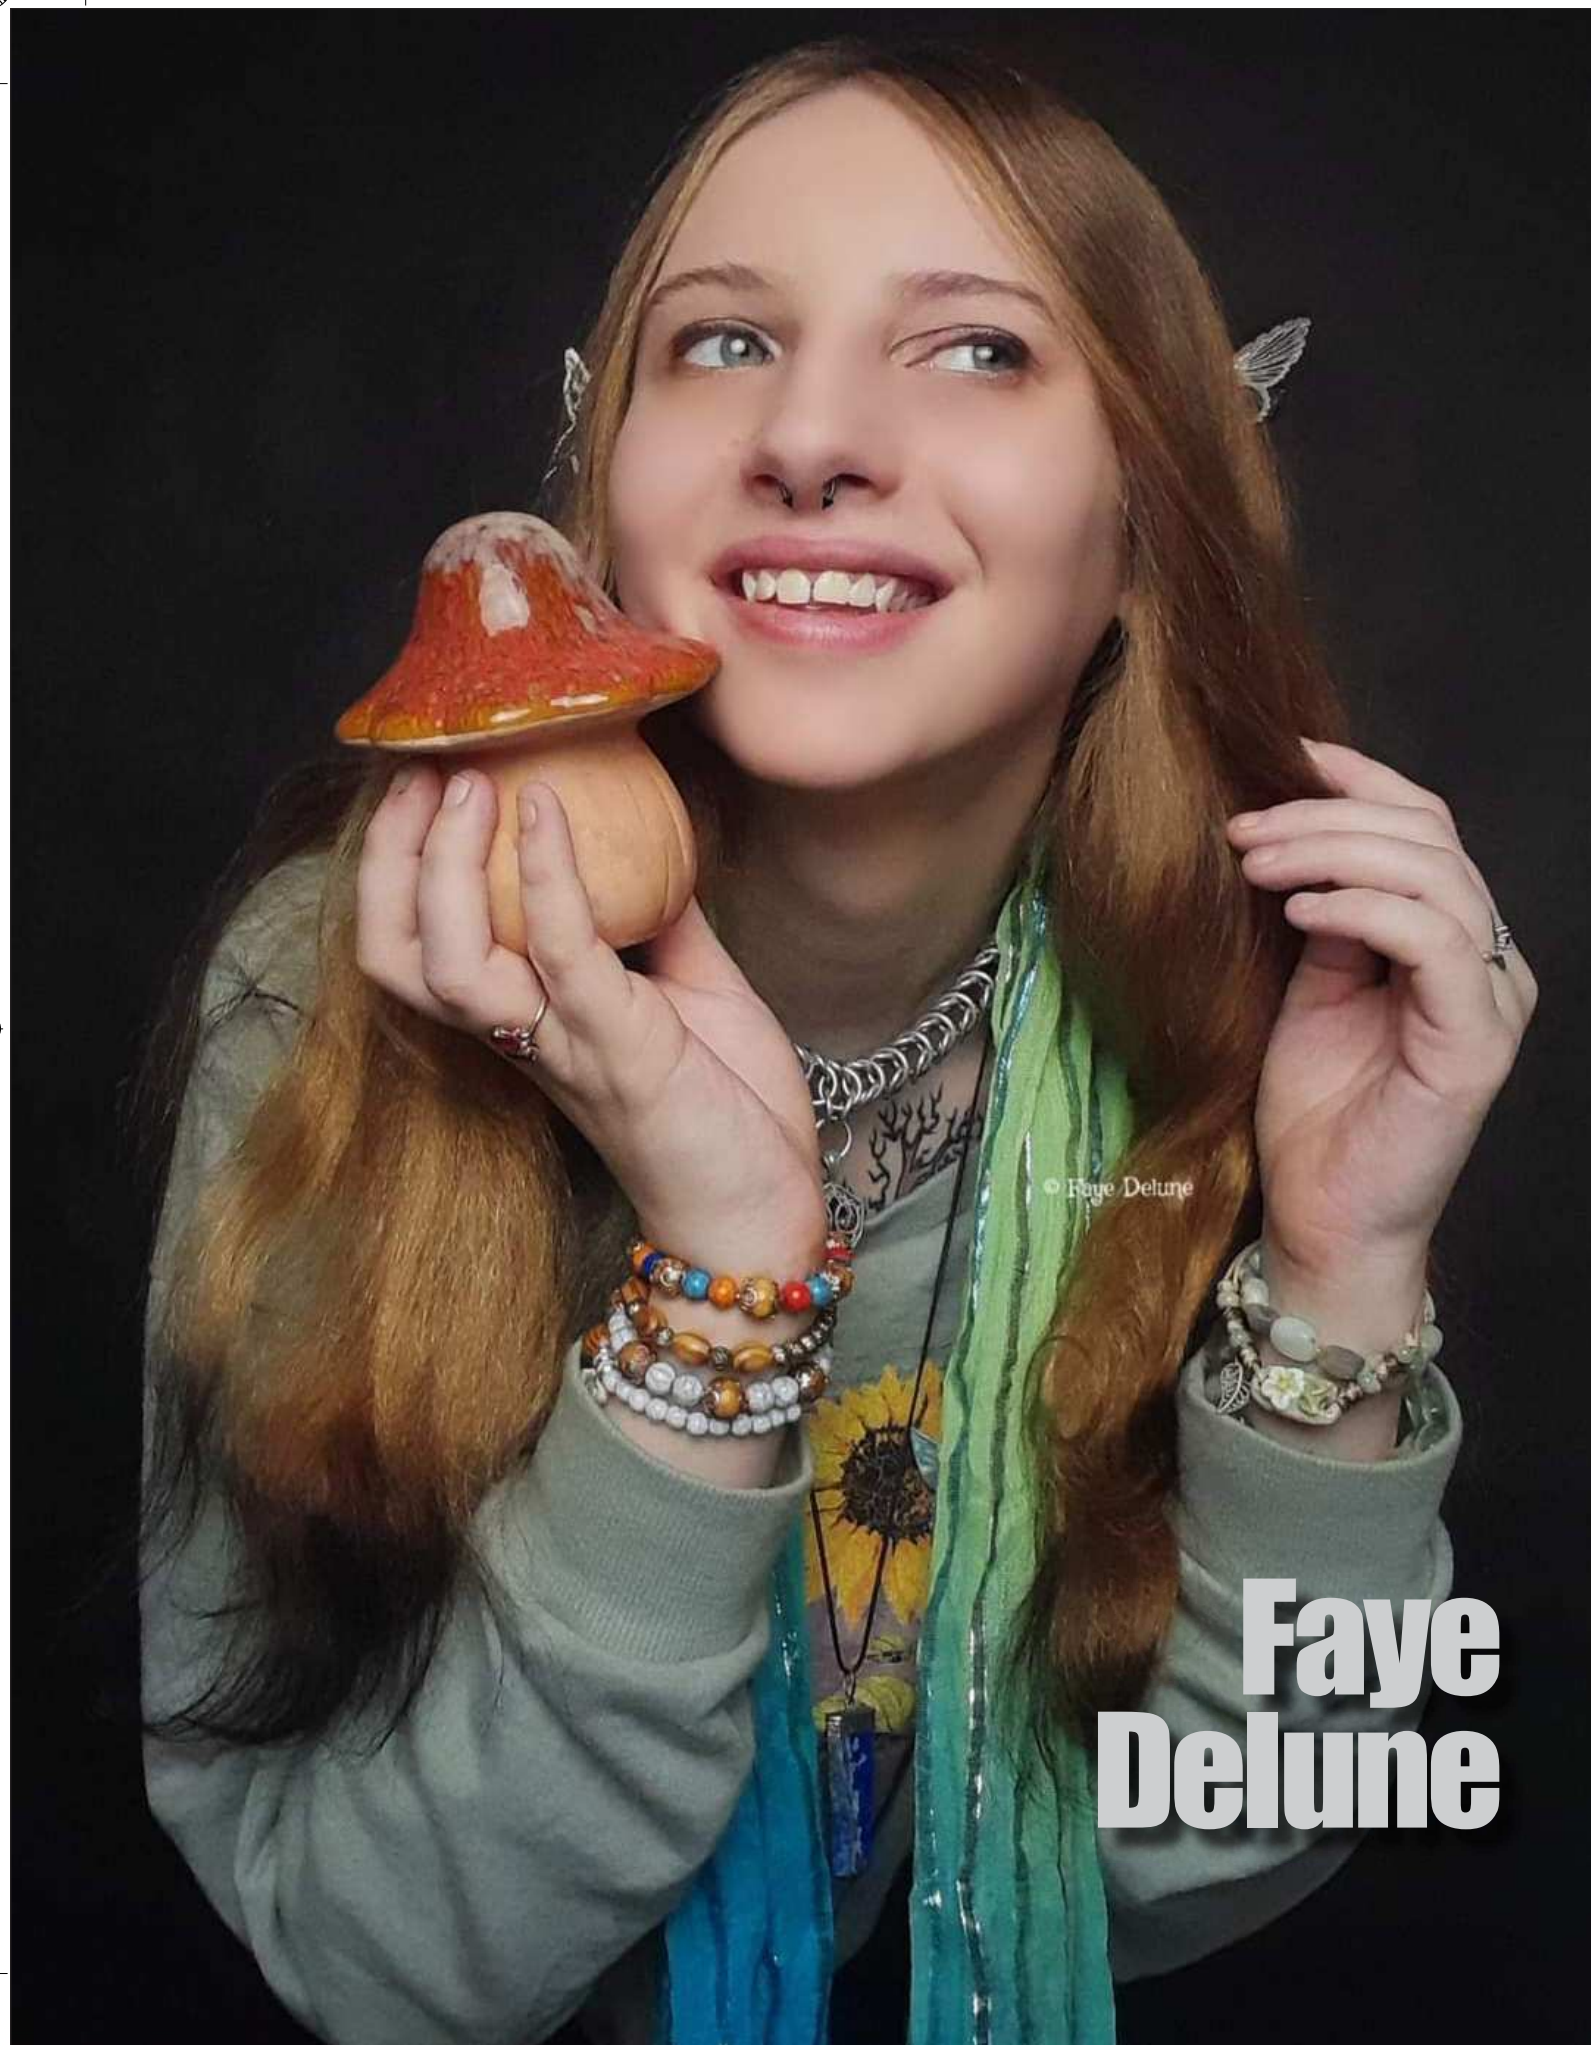

I hope you enjoy my work, and I welcome you to my world.
