Elena Plekhova was born on January 28th, 1980 in Tomsk / Russia and began to be interested in art as a small child. As a child in her native Russia, Elena attended art school and graduated with honors. She continued her creative work at the Faculty of Architecture in Nizhny Novgorod. Architecture and painting were linked by a fine line that was expressed in the strict lines of the houses and emotional waves in the pictures. She exhibited her works in the gallery using the technique of stained glass. After a difficult diagnosis of cancer, life changed its colors. On the canvases of evening

cities everything began to play in rainbow tones, and the inner world and zest for life of the artist are painted in the pictures of a female body. Elena Plekhova has lived in Germany since 2019, and since then she has only devoted herself to art, combining her knowledge with a love of art and also passing it on as an art teacher. Today she mainly works with oil, but she also likes to paint acrylic paintings. Her favorite subjects range from street scenes to portraits and still lifes.

My names Faye Delune, and I'm A Professional Model, Musician, Artist, Writer and Photographer, of over 10+ years, but I'm really just an all around creative person and artist. I make a lot of different forms of content and art. Online Content is my main form of art tho. Honestly my dream is to just make art, and make others happy, but really, If I can spark a reaction of any kind from my art, then I've met my goal. I'm a huge nature lover, who's obsessed with all things astrology and space. so I try my best to incorporate nature and astrology into my work. But really, I just love bringing ideas, and stories to life with my art. Almost every image of either me, or my photography, I try to convey a story within it. "I'm A Blank Canvas, Give Me A Story To Tell." / "Lets Tell A Story." / "A Story Within Each Piece" Are the phrases I Use To Describe My Art. For the past 10 years, I've been studying and learning Modeling, Art, Writing, Music, and Photography at The Professional Level and really enjoying the artistic aspect of it all. In the 10+ years, as a model, musician, Artist, Writer and photographer, I have had the honor of being featured in/on countless of Magazines, Runways, Commercials, Editorials,

Catalogs, Books, Websites, Social Medias, and more! I have also worked with several Brands, Companies, Businesses, Artists, Designers, Bands, and more! Throughout My Career, I Have Also Been Awarded and Published Over 5 Thousand Times! Through the years, I've had the pleasure of meeting a lot of very cool, interesting, and kind people. I'm a social butterfly, so obviously this was heaven for me. People leave impacts on you, and this job of mine, regardless of if I'm the model, musician, or photographer, it allows me to meet lots of people, who usually leave impacts on me and vice versa.

I love making art, and love showing it off.

I hope you enjoy my work, and I welcome you to my world.

No bigger dream than doing what you love is existing for me - being a musician, playing/arranging and composing different styles, from Rock/Pop to Funk, Jazz, Blues and Soul / RnB to orchestral music combined with artists of the electric scene.

As a guitarist I am currently playing live and in the studio for Austrian star Josh., composing and playing for the international stars Waldeck and The Horny Funk Brothers feat. Hubert Tubbs ( Ex Tower of Power). Furthermore I played with Mat Bianco, Camo and Krooked ( studio ), Lana Gordon, Christina Stürmer, Christian Kolonovits, Austrian orchestras and many more mainly in Europe, also doing film music for Disney, BBC productions and studio work for German musical companies.

In the future the work as a songwriter and producer is getting more and more important for me.

Besides that my work on improvised instrumental music - combining different musical worlds like I did with bands like Coup DeBam ( no 1 itunes charts in World music ) - is another focus next to modern pop music I am into.

Mainly cooperations with musicians and acts of the electronic scene are interesting for me- and hopefully-interesting for them too, based on my knowledge not only in improvised but also written classical and modern music.

So I am looking forward to everything what is coming!
