My name is Albie Johnson. I am 8 years old from Cheshire, UK and I love football. I play for Sandbach United on Saturdays and Macclesfield F.C on Sundays and I am also currently on trial at Port Vale F.C Academy where I hope to get signed.

I am an attacking left midfielder and my coaches tell me my best attributes are my strength and my ball skills.

It is my goal to one day to become a professional footballer so I work hard every day and work with my coaches at training to improve my game and become the best player I can be. Hopefully by doing this I will one day achieve my dream to play for my favourite team, Aston Villa.

My biggest achievement so far was to win Managers player of the year and Parents Player of the year for Sandbach United U7's.

Spending my life playing football is my dream. There are lots of things I like to do, but the only thing I LOVE to do is play football.

I've been playing since I was 4 years old and found my love of being a goalkeeper pretty quickly. I have established myself in my teams, and have held the position of team captain for a number of

years. Together with my teams, we achieve big things! Winning leagues and cups and most importantly playing amazing football and loving every minute!

My dream is to continue improving and learning while achieving in the highest and most competitive leagues.

Cole is currently in his junior year at Lincoln Pius X, in Lincoln, Nebraska. He is a multi-sport athlete, excelling on the football field as well as the baseball diamond. He is extremely versatile, playing runningback, slot receiver, strong safety, cornerback, & kick returner on the gridiron. On the diamond, Cole plays catcher & middle infield, batting in the middle of the lineup. He is also a

beast in the weight room, maxing 250 pounds on the bench and 415 pounds on squats. He gets it done in the classroom as well, maintaining a 3.2 grade point average. He hopes to play sports in college and vows to work as hard as anyone!

The biggest dream is playing for iran national football team , and next , playing for the real madrid CF . and finally become a famous football myth like ronaldo and messi.

I have a lot of goals that I need meeting them to approach my dream, such as being a professional player at reputable teams in all ages and being best.

I imagine the day that playing in the Santiago Bernabéu Stadium. That day I will be proud of myself because of my achievement.

I'm 6 years old and I'm playing for the under the age of 7 team of Aria Pars FC. it's the first step of my road map. and next step is playing at the premier leagues of under the 14 age of professional teams.

I'm looking forward to it , so I practice hard and harder , and know, for this achievement I should do it continuous and uninterrupted.

keep Ilia Naseri in your mind because you need to remember me one day , soon.

I have played tennis ever since I was 8 years old, and have had a love for this sport from the very beginning. I am now 22 years old, and just graduated from Midway University where I played four years of college tennis. These past four years were some of the hardest years of my life, but I would not trade it for the world because it has made me the person I am today. The game of tennis has taught me so many life lessons, helped me form long lasting relationships, and helped me grow as a person. Tennis has been a very hard sport mentally and physically. The mental aspect of this sport is the toughest part, because you have to be in a good mental state to perform well.

Over the years playing this sport, I have learned the values of patience, hard work, and the famous quote "fake it till you make it". This quote did not speak much truth to me until I had to go into a match with many people watching, depending on me to win, and sometimes against opponents that I felt I had no chance up against. This quote really helped me when I would get nervous before matches, and helped me to just remember that I was there for a reason. My past coaches and teammates have treated me like family and were always there to pick me back up, and I am very thankful to have had that kind of support system.
