I've been playing soccer since I was 3. I'm a center midfielder for my competitive team. I started out as a goalie and decided to try the field. I'm a starter and love to run. I run for my school track team. My first mile run was 6.38. I'm currently in honors courses and have straight A's. I applied and interviewed for leadership and start next school

year. I've wanted to be an Architectural Engineer since I was 8. I love to draw. I hope to get a scholarship from soccer and academics. I've also been on the news team at school, done gymnastics, played softball and like to ride my skateboard. www.instagram.com/Alexis29_09

As a 9 yrs old kid, who has been practicing soccer since 4 yrs old, my dream is to become a professional soccer player and be part of a professional soccer club, such as, Barcelona FC.

My goals is keep practicing and working in my soccer skills to improve my development as a

soccer player in high school and much better in college.

Mi achievement is to success in soccer with technique, game intelligence and physical fitness.

My challenge is to practice like a game, taking every day practice like it was my last match.

I am a scientist and photographer living in the Washington DC area. Early on, I was mainly a landscape and wild-life photographer. As an outdoor photographer, I was fortunate enough to travel to many countries in six continents and capture many unique and beautiful moments. In the past two years, I have become passionate about portrait photography capturing the spirit and essence of people. Being a scientist, I love experimenting with my photography whatever the genre.

I have known Imani, a senior in high school for a long time. Since being a child, tennis was always her passion. She started playing tennis at the age of 8 years old and quickly grew to love it. She traveled across the country to play tournaments. As of right now she is a 3 star tennis recruit, ranked top five in the state of Maryland. She was recruited to play tennis at multiple D1,D2, and D3 colleges. She ended up choosing Johns Hopkins University in order to pursue her other passion, helping others. She plans on studying Biology at Hopkins in the premed track and plans on attending medical school. Using her experience from the tennis court, she wants to translate her knowledge of the human body by being a doctor. She acquired a great deal of knowledge from her own injuries and from her training. By studying Anatomy and Physiology in school, she was able to use her knowledge and apply it to herself on the tennis court. She hopes to do the same in the future as an Orthopedic Surgeon.

Imani wanted some tennis senior pictures, and I loved the idea! We took our time doing the photoshoot and at the same time having fun and documenting all of the moments. We did some action shots as well as some stills. I am so glad to have worked with Imani and looking forward to working with her again.

My name is Ezekiel Gonzales also known by Zeek The Keep. I am a 2012 Goal Keeper that trains and plays hard. 3years ago I was in baseball playing pitcher and short and I believe that's what helped me as a goalkeeper. Anyhow at my first soccer practice because I knew nothing of soccer my coach put me at goalie, and I soon feel in love with the position. I soon started getting scouted to go to other teams and academies and I finally went to a top academy in Los Angeles LAUFA . I work hard and train even harder... having other teams, rivals

and invites to go here and there is a true complement, but I have a loyalty and responsibility to my academy first. In the 7months that I've been in this whole competitive world of soccer WE as a team have earned trophies and medals in season, tournaments and even in my first goalie war.

My dream/goal is to be successful. Weather it be 3years, 10years or a lifetime career in soccer I want to be successful and work and train.
