Hailing from Charles County MD this large mountain of man child named Craig Horne III has caught the attention of not only his community but his name has spread across the nation. On Nov 5th, 2023 he helped lead his City Life Raptors 6U football team to the Championship game vs The Rosedale Tigers 6U where he went head to head with another local standout player. The game went down

to the wire and the Tigers were victorious however Horne was the star of the trenches, the Big Fella completely shutdown the middle of the field on defense and was a human bulldozer just plowing through opponents on the offensive end.

Craig is also a multi sport athlete that enjoys playing Basketball, Baseball and Soccer outside of Football.

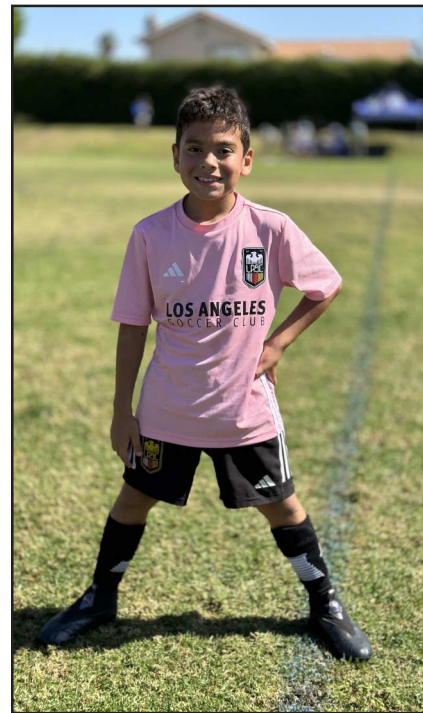

His father Craig Horne Jr is an award winning Coach with multiple championships in various sports and his mother Tanika Horne has her share of National, State, Regional and County championships as a Cheer Coach and Director. It's safe to say Championships run in the family bloodstream.

I want to be the best baseball player

Ruwensley Alexander

My name is Elvin Hartman. I love to train at night. I also want to win every match for my team as it builds confidence in the team. Though, most of the time, I am focused more on the process rather than the result. The gloves in my hands motivates me to work harder and bring the best out of me. Team training and playing warm up matches is very important and I hardly miss them because they are an integral part of my preparation. I also like monsoon season and the rain.

Nicholas Verdiglione

My Name is Nicholas Verdiglione I play multiple sports with my main sport being baseball. I am 12 years old, my favorite number is 11. The sports I've played over the years have helped me learn life lessons and responsibilities. I have had many achievements in these sports but I know this all comes from hard work. Some of these achievements are MVPs and lots of tournament championship wins. For example 8x World Series champion. I have also played on many select teams. I recently was down in Texas playing for 12u Team Mid-Atlantic. Overall the sport of baseball has really helped me develop in life and

I hope to stride for more awards because, " you can always do better." My dream is to be a MLB player, people have asked me, "what else would you be if that didn't happen." I never answered because that is what my passion is and always will be. Some challenges for me are pitching. I throw hard but need to get more accurate. My dream college is the University of Tennessee because of the school's good fan base and sports programs. I know I will get there one day but I need to keep putting in the work and I will be there.
