Bruce Smith is a self taught freelance photographer based in the South Florida area. He has over 40 years experience as a photographer, with 11 of those years as a fashion and Swimwear photographer amongst other types of photography, including product, headshots, family, and corporate, to name a few.

He began his photography passion at the young age of 9, when he received his first camera as a birthday gift from his parents. For the next few years, he spent his entire allowance on film, flash cubes/bars and processing. In High school, he attended Vocational School where he majored in Graphic Arts, which was totally different than Graphic Arts is, as we know it today. He excelled tremendously in his photography classes, and was the only student in his class that was allowed to photograph the girls in the Cosmetology classes. He was in these classes from September 1975 through graduation in June of 1978, where he graduated highest in his photography class. This was the start for his love and passion for Fashion and Swimwear photography. Before scheduling a photoshoot, of any style, he always conducts either a face to face meeting or video call prior to scheduling a photoshoot, so shoot ideas can be discussed, and the model / client and Bruce can get to know a bit of each other's personality. The final results on any shoot doing this, has always proven to result in much better final results.

Vanessa Medina

Hello! My name is Vanessa Medina. I grew up in Medellin, Columbia... the city of the eternal spring! I was raised surrounded by nature, delicious food, animals, and beautiful landscapes. It was hard to think outside the box coming from a country like mine, but adversities never stopped my family and me from going after our dreams. Today, after many years, I am making my dream come true doing international modeling. I have come across many difficulties with self esteem and confidence, but modeling has helped me break the misconception about this amazing career. I have met incredible people that have been essential for my growth, both mentally and physically. This career has brought amazing people and unforgettable moments into my life, that I will be forever grateful for.

This specific photoshoot made me come out of my comfort zone and find a lot of tranquility in trying things I normally wouldn't do. It makes me proud that one day I can be an inspiration for little girls from my country to love themselves the way they are, and to never give up because dreams come true only when you believe in yourself.
