Hi, my name is Ari and I am a published fashion model, author, entrepreneur, and engineering student from Rhode Island. I am currently pursuing a dual Bachelors/ Masters degree in Computer Science and Neuroscience at MIT. I actively contribute to MIT's Mobile Technology Lab, working on advancements in the digital health space. My interests span from startups and AI to healthcare, complemented by internships at Microsoft and Apple across software engineering, product management, and engineering project management. I also founded Arinthia Design, a digital web agency, co-founded the iCreate Makerspace Lab, and published "Historia de la IA: Poder, Peligros y Posibilidades" a book about the history of AI for Spanish speakers. My passion extends to mentoring startups through MIT Global Startup Labs, and I've dedicated my time to nonprofits like 50/50 Leadership, Leading with our Values, and Project Fresh. I aspire to be the CEO of a groundbreaking company that combines health and machine learning, crafting affordable solutions to conquer healthcare accessibility and precision hurdles in developing nations, particularly in my mom's home country of Honduras. As an indigenous Latina in tech entrepreneurship, I hope to challenge the lack of representation and amplify fellow women of color, fostering empowerment and inclusion.

Bruce Smith is a self taught freelance photographer based in the South Florida area. He has over 40 years experience as a photographer, and 11 years in full time Fashion and Swimwear, amongst other types of photography, including product, headshots, family and corporate, to name a few.

He began his photography passion at the young age of 9 when he received his first camera for his birthday gift from his parents. For the next few years, he spent his entire allowance on Film, flash cube/bars, and processing.

In high school, he attended Vocational School where he majored in Graphic Arts, which was totally different than Graphic Arts as we know it today. He excelled tremendously in the photography classes, and was the only student in his photography class that was allowed to photograph the girls in the Cosmetology classes.

He was in these classes from Sept 1975 thru May 1978, when he graduated the highest in his photography class. This was the start for his love of fashion/swimwear photography.

Before scheduling a photo shoot of any style, he always conducts either a face to face meeting or a video call prior to scheduling a photoshoot, so shoot ideas can be discussed, and the model and Bruce can get to know a bit of each others' personality. The final results on a shoot doing that has always proven to result in much better final images.

My dreams are to be the best person I can be. I love helping people but I absolutely love being in front of the camera. Modeling has always been a dream of mine and something I have always been

good at.

Model Emili Axe

I moved from Michigan down here to Florida 3 years ago. I didn't really get into modeling much until moving here. As a single mom, it's more of a hobby I have taken up. I put together a body positivity shoot with some girlfriends to gain confidence after having my two kids and a bad break-up and ever since I've just continued to do photoshoots. I enjoy meeting new people during each photo shoot and speaking with the

photographers to bring awesome new ideas to life. Through photoshoots, I pray to just meet more amazing people and find myself again in this journey.
