Alisa started modeling for me back in 2018 when she met me through a Model Casting for Perfect Poise Productions. She modeled in showcases that I showcased in which is perfect poise productions fashion show, Free Spirit and Virtual Couture Experience Fashion Show with B.fly Beauty founded by Ava Stringfellow. Alisa really

brought my plus size collection to life on the runway. Her catwalk is fierce and flawless. I am so glad that I got to work with her.

Trying to be confident in a new body has had many struggles. I did this photo shoot to build my self confidence level. I was definitely nervous at first as I have never done anything like this before, and Amy was so nice. She made me feel so relaxed and helped me with poses and being all natural. She was definitely very easy and

fun to work with as well as a talented photographer.

This was such a fun shoot and I hope to do more very soon!

Lily Brown

My name is Lily . I am born and brought up in the USA, very fond of cameras since childhood, I want to be a professional actress

I am a scientist and photographer living in the Washington DC area. Early on, I was mainly a landscape and wild-life photographer. As an outdoor photographer, I was fortunate enough to travel to many countries in six continents and capture many unique and beautiful moments. In the past two years, I have become passionate about portrait photography capturing the spirit and essence of people. Being a scientist, I love experimenting with my photography whatever the genre.

A chance meeting with Faye in summer last year led to this amazing shoot few months later. Faye is a very talented model and has been modeling for many years. During our photoshoot, we kept on discussing and experimenting during the photoshoot. Working with her helped me experiment with off camera flashes, helped me understand the process of incorporation of OCFs during shooting with ambient light and hone my skills as a portrait photographer. I am so glad to have worked with her and looking forward to working with her again.
