Autumn Rain Towne

I am a scientist and photographer living in the Washington DC area. Early on, I was mainly a landscape and wild-life photographer. As an outdoor photographer, I was fortunate enough to travel to many countries in six continents and capture many unique and beautiful moments. In the past two years, I have become passionate about portrait photography capturing the spirit and essence of people. Being a scientist, I love experimenting with my photography whatever the genre.

I met Autumn Rain through the Model Mayhem website where you can search for models, photographers and other artists in the area. It wonderful to work with Autumn. We started communicating well before the photoshoot. She was prompt and professional. We had a real fun shoot. We took our time doing the photoshoot

and at the same time having fun and documenting all of the moments. I am so glad to have worked with Imani and looking forward to working with her again. Autumn is a Washington DC based model and also an accomplished artist.
