Alexis Norton

Sydney is a 7-year-old Gymnast from the Midwest who lives and breathes her sport. She earned the title of Nebraska state champion two years in a row, taking gold in her first year as a level two then again her second year as a level three. She tested her strength in the TOPs program last year, earning a coveted spot on the National Diamond Team, which consists of the top 50 7-year-old gymnasts in the country. She's currently training for level 4 in the USAG DP program but hopes to score out and move up to 5 before the season is over. She's also pushing upgrades hard now that State Championships are over, her sights set on the

increasingly difficult 9-year-old TOPs testing requirements. But she consistently performs better under pressure and never backs down from a challenge. Her ultimate goal is to become an elite gymnast, competing against the top athletes in the country and possibly earning a spot on the US National Team. She's dedicated to the sport and absolutely loves every second she spends in the gym, even when it's hard. Wherever it takes her in life, one thing is for sure: she's going to have fun getting there!

My name is Annelin and I am 13 years old. When I was a little girl, I already loved gymnastics. I just knew that this sport was suited for me. My first competition was in 2016, I was 7 years old then. I got the first prize! When I was 9 years old I had to go to another club, because I needed more challenge and at my old club I couldn't do gymnastics at a higher level. In my new club I learned a lot of new things. But then my coach stopped and I couldn't train enough hours a

week. Again I had to go to another club. This is the club were I am still training. It is super nice there and I am learning a lot of new elements. My team is also very nice, we share our passion for gymnastics and we are having a lot of fun together. My dream is to one day participate in a big competition, like a world championship!

Colbie Tjoe

My name is Colbie. I am a sweet little girl from the US who likes gymnastics. In future, I want to be a dancer and a continue gymnastics also.

I am aspiring model and actor and a seasoned dancer. I began my journey at 4 years old when I started taking dance classes with my older brother. I quickly realized I had a true love for dance and performing. I have been a competitive dancer for 7 years and a competitive soloist for 6 years. More recently, I have been modeling and acting for 3 years. I really love being in front of the camera, performing and sharing my love, passion, and emotion with everyone.

I continue to push myself to grow my experience and abilities. My current goals are to continue my growth in leaps, acrobatics, turns, and flexibility. I am also working to expand my modeling portfolio and expand my acting experience. I really love working with my acting coach every week. Getting to work on all different script styles, improve, and character analysis is one of the many highlights of my week.

I dream of becoming a professional model, actress, and dancer and getting the chance to continue sharing my love and passion with the world. I hope to inspire others to follow their dreams no matter how big and to know that with hard work and dedication anyone can achieve any goal. I would also love to get the chance to teach other kids how to dance and watch them develop their passion.

I have been very blessed over the last 7 years that I have been performing and have received a number of accolades:

Inferno Artist on Fire

International Modeling and Talent Association (IMTA) Model of the Year

International Modeling and Talent Association (IMTA) Dancer of the Year

I have always wanted to be a gymnast since I was two years old after watching Simone Biles perform at the 2016 Olympics. I tried so hard to do most of the flips she was doing after I watched her on TV. My grandma video recorded me and put it on FaceBook which received a lot of views and positive comments. I continued to flip every chance I got whether I was at home or in the community. My grandma made sure I wore shorts under my dress. One day she decided to enroll me in gymnastics so I could learn the correct way to do the skills. She showed videos of me

doing flips. The owner of the gym decided to put me in competitive gymnastics. I have competed in lots of meets and made high scores. I currently have over 100medals and recently made 1st place North Carolina State Bean, 2nd place Floor and level 3 North Carolina All Around Champion for my age group. My goals are to get a gymnastics scholarship so I can attend college and become a doctor. I also want to participate in the Olympics when I turn 16. My biggest challenges are to be patient, stay focused and practice gymnastic skills everyday.

We are Emilie and Alanah. We are British-Mexican 8 years old identical twins. We are level 6 artistic gymnasts. We started recreational gymnastics at age 5 but got into the team at age 6. We had a couple of competitions at level 2 before Covid but after 3 months of lockdown came back stronger to a new gym and started getting trained for level 6. We've only had 2 competitions as level 6 because there weren't any for nearly 2 years here but on our last one we have improved a lot with Emilie medaling in all the events and Alanah in 2 and we both got a good score to pass to level 7 but due to age restrictions in Mexico can't pass until next year. Our goal is to finish level 6 season very

strong. We also try to go regularly to train in the US and this has made a huge difference. Our dream is to be able to represent one of our countries internationally one day.

We also do competitive dancing just for pleasure but we've actually won 3rd place overall in Las Vegas with our duo and just won recently 2 special awards and 1st place overall with our new duo and 3rd place overall with our group dance.

We believe that anything is possible if you are in the right place and work very hard for it
