My name is Julia. I am a tattoo artist from Dave's Bautista and John's Kural tattoo shop DC Society ink. I have been tattooing for almost 3 years. I got into the tattoo business by chance. I have been drawing since childhood, but I never dreamed of being a tattoo artist. Not because I did not like this profession, but because I was afraid that it would force me to get a tattoo. After all, a tattoo artist without tattoos seems strange. However, now I am a tattoo artist without tattoos and I am glad that I did not succumb to stereotypes and remained myself. I prefer to show my skill with the quality of my work, rather than wearing other artist's work on my body. I love to draw and improve my skills. Each new tattoo is a challenge. I admire the work of many famous tattoo artists and strive to get closer to their level and maybe become better. I work in all styles and I think I would like to continue to be a versatile tattoo artist. I think it's great when a client can get any tattoo from their favorite artist. Many tattoo artists choose only a certain style. At the beginning of 2023, I participated in my first tattoo convention and won first place in two categories. It's definitely inspiring, so I'm going to continue to take part in competitions. The ability to tattoo is more dependent on the ability to draw. In the past, I had to give drawing lessons. I like to share my experience with other people, so I would like to open a tattoo school.
