Anastasia Zentveldt

My name is Anastasia Zentveldt, 8 years old and I live in the city of Alkmaar in the Netherlands.

I've started figure skating at the age of 7 at the L2SK8 group and after a couple of months I've been asked to join the competition group for the tryout months. After that month I was glad to become a member of the competition team of the AIJC.

My first competition season is just over and was a great season it has been! I've took place at 4 competitions last year and every one I have stood on the podium. Two weeks ago we had a great Ice

Show and it was a fantastic experience for me as well! I would like to continue figure skating as long as possible and perhaps become a champion! I'm also dreaming of the Olympics.

I'm a big fan of the Russian figure skater Aleksandra Trusova and often try to copy her on the ice.

I love figure skating and I've been really blessed with the opportunity to practice this wonderful sport!

Axelle Poelmans

My name is Axelle Poelmans. I am 9 years old and I live in Belgium. My passion is figure skating. I started at January 2021 with private lessons and I like it very much! From October 2021 till May 2022 I learned all the single jumps. The Axel jump is my most favorite jump. I spend 13 hours in a week on the ice. January 2022 I passed the competition level test and I got my first cure. I

participated meanwhile at 5 competitions (also International). My best result was a 7th place of 29 competitors! I am looking forward to learn double and triple jumps! My idol is Loena Hendrickx, a famous Belgian figure skater. My dream is to master triple jumps and participate at the Olympics. The ice is my paradise!

Andreeva Elizabeth

Figure skater from Russia born in 2010

Junior team of Moscow

Winner of many competitions

Performs all triple jumps in 3+3 cascades with a Toeloop and a Loop.

Studies triple Axel and quadruple jumps.

Elizabeth has been doing figure skating since she was 6 years old. All this time she trains with the same coach. Elizabeth won prizes at almost all youth competitions and tournaments. Of course, there were defeats, after which she was upset and cried. But she didn't give up and didn't quit sports. Every defeat gives a great experience, but most importantly, it motivates you to move on and work harder.

The main thing is to do the best at every training session. This is the only way to win.

The dream is to achieve the highest results in sports and become a champion of Europe and the World. And of course, the main dream is the Olympic Games. This is the highest achievement for any athlete, a reward for many years of daily training.

I would like to compete with the world's strongest athletes, be friends with them and visit each other - :))

Athletes from all over the world should be out of politics ♥

Kelly Ponterio

My name is Kelly Ponterio. I am 37 years old, and I am an adult skater in the Ice and Blades Club of Western Pennsylvania. I started taking lessons as a kid in Learn to Skate and I quickly became obsessed with jumping, spinning, and moving across the ice. I took my first moves in the field test at age 13 and passed all the tests up to Intermediate 21+ moves. I have competed in many competitions both locally and all over the east coast. My greatest accomplishment was competing in the Eastern Adult Sectional competition a few years ago. Also, my skating

team came in first place in the small production category at the ISI Worlds competition. My current goal is to pass the Novice moves in the field 21+ test. I started taking ice dancing lessons with my coaches Bob Mock and Barb Gahagen several years ago. I would love to continue my skating with more competitions in the future and pass all of the USFS dance tests as well. I also enjoy coaching Learn to Skate on weekends and in my free time.

My name is Piper Lang and I am 11 years old from Scotland.

I have been skating 8 years since I was 3 years old. I have a fabulous coach called Diane Dewar.

Won 4 golds and 1 bronze at junior level.

Qualified for British Championships twice and I am 11 years old and I am doing ok and enjoying it but it's hard work as well as fun.

I am good at athletics and have won in my school year a few years running now.

So that's another interest I am willing to pursue.

I also do drama and some acting.

My family and friends are mostly important to me though first and foremost and my 2 hamsters.

I love to have fun and go on holiday.

I am kind and a team player.

My name is skyla. I'm 10 years old from Sheffield. I started skating last year when I went for the first time for fun and I instantly fell in love the second I stepped on the ice. From may 2021 I completed the skate uk/star program until February 2022. I then went on to train hard with my coach for my first competition in July

which was young stars. I won 1st place in the beginners category. I was so happy and so incredibly proud of my achievement and score. I want to continue to compete and aim as high as I can in the future to be the best figure skater I can possibly be.

Sutton Mann

Sutton Mann

Age 8

The Vegas Golden Knights Center Of Excellence

I began taking lessons almost 3 years ago at the age of 5 and haven't looked back! I practice 5+ days a week between two coaches and off-ice lessons. I love my coaches (Savannah Lilly & John Denton) so much! They are incredible skaters and know me so well. They make learning fun and

always have my best interest at heart.

Dreams: I hope to coach and/or be part of a team while I'm in college. I have a dream of becoming a chef and owning my own restaurant. I want to go to both culinary and business school.

Goals: My next goals are to hit my double salchow by the end of summer and fine tune my routine by including new skills. I will practice for my next test and want to improve my spirals. I have been working on my flexibility

by practicing aerial silks, Lyra and contortion.

Achievements: I set a goal to land my Axel by July 4th and I landed it on July 4th!!! It took about one month from the first time I was on the harness to landing it on my own! The following day I landed my double toe but it still needs work. I passed my first Pre-Preliminary Moves in the Field test in April with honors and couldn't believe all that hard work paid off.

Challenges: The most frustrating part of skating is

when you lose a skill you previously had. Also, finding available times to skate or local competitions.

Even though I'm a singles skater, I have met some incredible skater friends! Some are part of my coaches team and others I have met through competitions and my home rink. It makes the sport so much more fun to have friends and one day soon I look forward to traveling to competitions with some of them.

Our names are Victoria and Daria. We are sisters, twins from Kazakhstan. We have been engaged in figure skating for 8 years. We go regularly to republican competitions. We are developed in different directions, train according to the tabata system and post on our YouTube channel - Lovely Sisters. We also applied for the Guinness Book of Records, wanted to break the record, but

unfortunately we were refused because of our age. Also, we constantly participate in city competitions. We competed in berpi, squats. And every time we get prizes. We are huge fans of Russian figure skaters. Anna Shcherbakova is our idol, we strive to repeat the path of the 2022 Olympic Champion. Our dream is to train with the famous Anna's coach-Eteri Tutberidze.
